Projects

Inkwell – Blogging Website | *MERN Stack, RESTful APIs, bcrypt, Git, Framer Motion, Tailwind* **Feb 2026 - Mar 2026**

- Engineered secure user authentication and authorization using JWT tokens and bcrypt hashing, implementing protected routes and role-based access control for authors and admin users.
- Crafted a social engagement layer with follower/following system, post likes, nested comment threads, and bookmark functionality, enabling community interaction across the platform.
- Delivered a responsive, component-driven frontend with reusable UI components, animated page transitions via Framer Motion, and an author dashboard displaying post-performance metrics including views, likes, and comments.
- Repository Link: **https://github.com/poorviii19/Inkwell.git**

Placify – Student Internship Portal | *MERN Stack, Socket.IO, RESTful APIs, bcrypt, Git, Postman* **Oct 2025 - Dec 2025**

- Implemented role-based authentication using JWT tokens and bcrypt-based hashing to ensure secure user access.
- Executed real-time workflows using Socket.IO. enabling live notifications, shortlisting/rejection, and other tasks.
- Architected and evaluated scalable RESTful APIs and role-specific dashboard for students and companies.
- Integrated and optimized AI-driven features using Gemini AI API to generate newsletters and task descriptions, improving automation and platform productivity.
- Repository Link: **https://github.com/poorviii19/Placify.git**

XamXpress – Examination Platform | *HTML, CSS, Tailwind CSS, JavaScript, PHP, MySQL* **Mar 2025 - Apr 2025**

- Developed a role-based dual-portal examination platform supporting secure test creation, scheduling, and controlled distribution to batches or individual students.
- Introduced monitoring and validation features, including live webcam and microphone checks, to preserve exam integrity and reduce malpractice risks.
- Automated evaluation workflows to process student responses, generate instant results, and produce detailed performance reports for faster feedback.
- Optimized system usability and reliability by improving question navigation, real-time exam handling, and seamless UI–backend integration.
- Repository Link: **https://github.com/poorviii19/XamXpress.git**

Certificates / Certifications

Android Development(Kotlin & XML) **July 2025**
Lovely Professional University — Certificate Link

Social Networks **May 2025**
NPTEL — Certificate Link

Responsive Web Designing **Dec 2023**
FreeCodeCamp — Certificate Link

Skills

Languages C++, Java, JavaScript

Technologies/Frameworks: React.js, Node.js, Express.js, Tailwind CSS, Bootstrap

Tools/Database: Git, GitHub, Postman, MongoDB, PostgreSQL

Other Skills: Data Structures and Algorithms, Responsive Web Design, Stakeholder Communication, Adaptive Learner

Education

Lovely Professional University *Phagwara, Punjab*
Bachelor of Technology - Computer Science and Engineering — CGPA: 7.83 **2023 – Present**

A.V.M. Convent School *Dholpur, Rajasthan*
12th — Percentage: 83.00 **2021– 2022**

A.V.M. Convent School *Dholpur, Rajasthan*
10th — Percentage: 89.60 **2019– 2020**
